

During the Covid 19 Lockdown we decided to take advantage of the situation and commenced a major refurbishment programme, and for those interested there is a link to our complete Schedule of Works.

Liberty Elite has always been considered by visitors, as ascertained by the many positive postings on the various normal websites, to be "The cleanest of clubs". It is obvious that good design considerations of both infrastructure and décor promotes good hygiene; thus undertaking the club refurbishment allowed us to re think and re design some elements of the club to yet further assist our housekeepers in both cleaning and our enhanced sanitising procedures.

We are now at that point that we feel that subject to current Covid 19 Government guidelines remaining generally the same we are in a position to consider re opening as a private hotel on a social basis only. Thus the first floor rooms and the Spa room will not be available for use, but may be viewed on tours of the venue with a tour guide.

Our web site calendar sets out the days we plan to open, the first opening day being Saturday 12<sup>th</sup> September 2020. Parts of our web site will be updated when for example we have new photographs of the venue.

In opening our foremost consideration is for everybody's safety, that is both visitors and club helpers and we have considered and will be applying the Government guidelines thus.

The club/hotel front door is designed not to be opened from the outside, so you will be greeted as normal at the front door.

Your temperature will be checked remotely.

You will be required, without exception, to sanitise your hands at the station provided.

Once in the reception foyer, you will be required to observe social distancing guidelines.

If you are an existing member and on our Data Base you can proceed to the reception desk; if this is your first visit you will need to complete our membership formalities as set out in our web site.

Prior to entering the club social area, staff will go through, social distancing and safety procedures with you.

As always first time visitors will be given a full guided tour of the club by one of our tour guides.

A hot BBQ style buffet is included in the entrance cost, however you will need a Face Mask to access the buffet area so please bring one. Additional guidance on safety in the buffet area will be given by staff in attendance.
